PROJECTS

Traceability scada | October 2023 - June 2024

- My role involves designing responsive user interfaces, developing robust backend systems, and integrating with automation frameworks.

Vehicle service provider | June 2023 - August 2023

- While working at HelpyMoto I develop this website to provide vehicle services like car driver, washing etc

Real estate project | February 2022 - March 2023

- I was working as full stack developer and this application provides real estate services like flat, plot, estab etc on rent and sale.

WORK EXPERIENCE

Pioneer Machine and Automation pvt ltd | October 2023 - Present

- Full stack developer:My role involves designing responsive user interfaces, developing robust backend systems, and integrating with automation framework.

Collaborating with cross-functional teams, I contribute to the creation of efficient and scalable automation solutions, ensuring seamless communication between hardware and software components.

Problem-solving skills and a deep understanding of both front-end and back-end technologies are crucial as you work on optimizing processes and enhancing overall system performance.

UCPro Llp | February 2022 - March 2023

- Fullstack Developer
